PURAV UMESH

Cyber Security SOC Analyst / Full-Stack Developer

Puravumesh33@gmail.com| +919900085466

Bengaluru, karnataka 562130

LinkedIn: www.linkedin.com/in/purav-umesh

PROFESSIONAL SUMMARY

Motivated Cybersecurity Analyst with hands-on experience in network scanning, vulnerability detection, and basic incident response. Skilled in tools like Wireshark, Nmap, and Burp Suite, with a solid understanding of security fundamentals and protocols. Quick learner with a passion for securing digital systems.

SKILLS

Security information and event management	Incident response
Teamwork and collaboration	Vulnerability assessment
Penetration testing	Web application testing
Ethical hacking	Cloud security testing
Vulnerability scanning tools	Penetration testing frameworks
Cybersecurity frameworks	Log analysis expertise
Full-Stack Developer(react.js,node.js,tailwind.css)	Splunk

WORK HISTORY

Cybersecurity Intern   *11/2023*
Microsoft (Virtual Internship) | Remote |

- Participated in hands-on simulations involving **threat detection**, **incident response**, and **SOC operations**.

- Worked with industry tools such as **Microsoft Defender**, **Azure Security Center**, and **Sentinel**.

- Completed training modules on **secure access management**, **vulnerability scanning**, and **cloud security protocols**.

- Gained foundational experience in **cloud security practices**, **compliance frameworks**, and **security automation**.

- Explored real-world scenarios for **SOC workflows**, **alert triaging**, and **response strategies** in Microsoft's cloud environment.

Full-Stack Developer
Freelance | Dubai-based Clients

11/2024

- **AmerCenter.org (Dubai)**
    - Developed a responsive visa and business services website using **React.js**, **Node.js**, and **Tailwind CSS**.
    - Implemented service categories, optimized SEO, and mobile-first design.
- **WonderWhizKids.in (Dubai)**
    - Created an engaging, colorful multi-page nursery website with animations using **React.js**, **Tailwind CSS**, **AOS**, and **Framer Motion**.
    - Integrated contact forms with **Formspree** and embedded **Google Maps**.
- **Darbia.com (Dubai)**
    - Designed a modern accounting services site using **React.js** and **Node.js**.
    - Included inquiry forms, clean UI, and scalable routing for services in both English and Arabic.

Tech Stack: React.js, Node.js, Express.js, Tailwind CSS, JavaScript, HTML5, CSS3, GitHub, Vercel

06/2025

EDUCATION

Bangalore University - Bangalore, India
Bachelor of Commerce: Specializing in Cybersecurity

- 7.86 CGPA

06/2025

CERTIFICATIONS

EC-Council

Certified penetration tester

PROJECTS

Vulnerability Assessment & Network Scanning

Web Application Testing Lab

SOC Operations Simulation (Microsoft Virtual Internship)

AmerCenter.org – Visa & Government Services Website (Dubai)

WonderWhizKids.in – Kids Nursery Website (Dubai)
